

AAcuity® PC-IG Special Effects

Real-Time Particle-Based Editable Special Effects

AAcuity® PC-IG Real-Time Particle-Based Special Effects

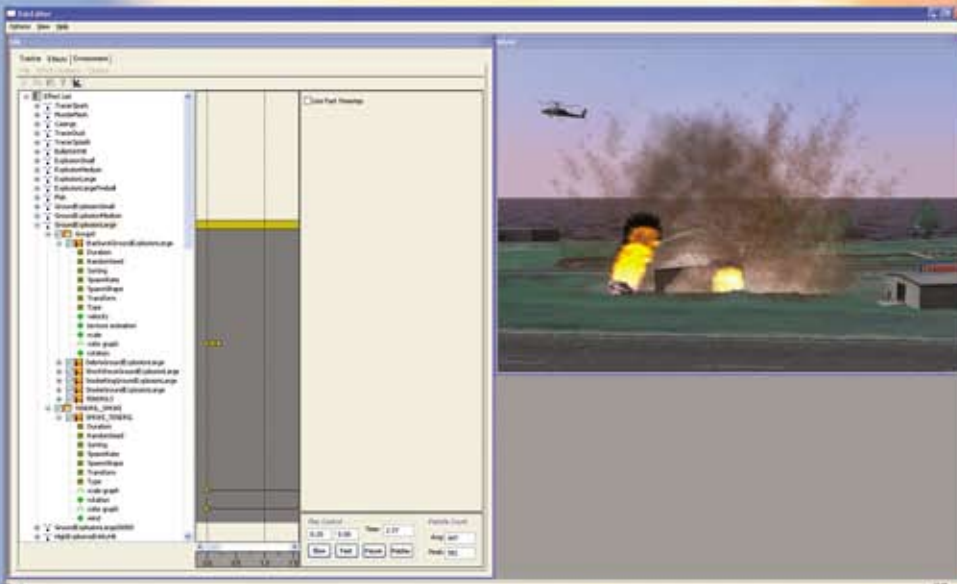

AAcuity® PC-IG Special Effects are optimized to take advantage of State-of-the-Art PC graphics card vertex and pixel shader hardware acceleration extensions. Effects are editable in real-time using a GUI based editor allowing instant feedback for performance evaluation and effects image quality.

Vehicle Dust Trails - Smoke and Fire

Ground Explosions

Real-Time GUI Based Effects Editor
